

# Java Developer Wealth Management Technologies

**Hours:** 100%

**Start:** start date negotiable

**Location:** swissQuant Group AG, Kuttelgasse 7, CH-8001 Zurich, Switzerland

swissQuant Group provides quantitative services, consultancy and products for financial and industrial clients, including a number of global Fortune 500 companies. Our business edge originates from the effective translation of Intelligent Technology into measurable, bottom-line client value. swissQuant Group is a privately held company incorporated in 2005 as a spin-off of ETH Zürich.

## Position

You will join our development team in the full stack implementation and delivery of our private banking software, quantitative tools and services for our clients in the financial sector.

## Scope

Your main tasks will be to define, develop and test high quality features along with the team and contribute in software design, code delivery and maintenance. Your responsibility includes adding new features to our products and prototypes or realize reusable user interfaces according to client requirements, as well as contributing to the development and deployment process.

## Requirements

We expect the successful candidate to possess technical capabilities, as well as solid IT and programming know-how. In addition, the following requirements must be fulfilled:

- ◆ Excellent computer programming skills, particularly in core Java, multithreading, system design
- ◆ Knowledge of most (but not necessarily all) of these concepts and technologies:

- ◆ Messaging, JMS
  - ◆ Guice/Spring
  - ◆ RDBMS (MySQL, Oracle), Hibernate
  - ◆ Docker
  - ◆ Web programming (Java Web Frameworks, HTTP, REST, HTML, Javascript)
- ◆ University degree in a quantitative discipline such as Computer Science, Engineering or Applied Sciences
  - ◆ Minimum basic knowledge of banking processes is a plus
  - ◆ Language skills: English (professional proficiency) and German (working proficiency) is a plus
  - ◆ Effective project management and time management skills
  - ◆ Eligible to live and work in Switzerland

## Application

swissQuant Group is a fast paced and dynamic company. We offer room for growth and a high level of personal responsibility in a challenging environment. As a successful candidate, you will join a project team and take an active part in the development of new software products linked to real client needs and future industry standards.
